## SUMMARY

UX/UI Designer with 2+ years of commercial experience delivering user-centered solutions across banking, e-commerce, and corporate web platforms. Skilled in full-cycle design from research to high-fidelity UI, design systems, and developer handoff, with decisions grounded in heuristic audits, competitive research (Baymard Institute, Nielsen heuristics), and user feedback. Committed to accessible, WCAG-compliant design and fluent with AI design tools (Claude, Midjourney, ReCraft, Gemini) that streamline workflows, accelerate prototyping, and enhance quality. Currently exploring mobile EdTech through self-initiated product concepts.

## SKILLS & TOOLS

**Design:** UX/UI Design · Design Systems & UI Kits · Wireframing · Prototyping · User Flows · Mobile App Design · Responsive Web Design · Visual Design · Micro-animation · UX Writing · Accessibility (WCAG 2.2) · Developer Handoff

**Research:** UX Audit · Competitive Analysis · Review/Feedback Analysis · Desk Research · Problem Framing · Hypothesis & Metrics-driven Design

**Tools:** Figma · FigJam · Claude · Midjourney · ReCraft · Gemini · Notion

## WORK EXPERIENCE

**UX/UI Designer** Dec 2023 - Nov 2025 | Full-time  
Craft Innovations (Research & Design agency)

- Owned key areas of a full e-commerce store redesign: rebuilt product search, designed the all-brands catalog and individual brand pages, and delivered mobile responsive layouts, refreshing visuals while preserving brand recognition. Grounded decisions in Baymard Institute research and competitive analysis.
- Led an independent UX audit of an online banking platform, delivering actionable recommendations against the team's usability criteria and Nielsen heuristics, addressing navigation, system consistency, and flow efficiency.
- Co-built large-scale design systems / UI kits (e-commerce and a news platform) alongside a lead designer, and built UI kits independently for smaller projects.
- Created an internal WCAG accessibility guide (55 rules) adopted by the team for a bank website redesign; owned the design side of accessibility.
- Worked directly with design leads and developers, delivering developer-ready handoff via Figma.

**Junior UX/UI Designer** Jul 2023 - Dec 2023 | Part-time  
Baza Trainee Ukraine (non-profit organization)

- Helped design a children's e-reading web platform, focusing on creating engaging experiences for young audiences.
- Designed user flows for quiz interactions using the established design system.
- Collaborated closely with a cross-functional team of designers and developers, gaining hands-on experience with the product development process.

## SELECTED PROJECTS: SELF-INITIATED REDESIGN CONCEPTS (MOBILE, EDTECH)

### Lucida | Mobile language-learning app, redesign concept

- Combined a heuristic audit, competitive analysis of 4 peer apps (100+ reviews), and desk research on learning science to improve the app's core flows.
- Defined success metrics and validation hypotheses for each solution, connecting design decisions to learning-science evidence, and built a clickable Figma prototype.

### Vaia | Mobile EdTech / exam-prep app, redesign concept

- Ran a heuristic UX audit and AI-assisted analysis of 50+ user reviews across 5 platforms to identify and prioritize the main pain points by impact/effort.
- Reworked the weakest flows, framing each solution as a testable hypothesis with defined success metrics and clickable Figma prototypes.

## EDUCATION

**Bachelor's Degree, Economics** 2019 - 2023  
Odesa National Maritime University, Ukraine

## CERTIFICATIONS

**AI for Designers: Workflows · Prototyping · Design-to-Code · Figma Automation** 2026  
Shain Academy

**Mobile App Design** 2024  
SKVOT

## LANGUAGES

**English:** B2 (Upper Intermediate) · **Ukrainian:** C2 (Native) · **Romanian:** B1 (Intermediate)
